The Lee Company – IMH Group REACH Declaration

Dear Valued Customer,

The European Union's REACH Directive (EC 1907/2006) is designed to regulate the Registration, Evaluation, Authorization and Restriction of Chemical Substances. REACH legislation was finalized in December of 2006 and has been in effect since June 2007.

The Lee Company's IMH Group products and packaging are considered articles and are therefore not subject to REACH registration or pre-registration. However, The IMH Group recognizes that its customers require a statement of REACH compliance and therefore, as is recommended by the European Chemicals Agency (ECHA), conducts a REACH compliance inquiry process with our suppliers with each update of the Substances of Very High Concern (SVHC) list. Based on this inquiry process The IMH Group can state that it is compliant with the requirements of REACH as it relates to articles. Additionally, none of the chemicals listed under Substances of Very High Concern are intentionally added to, or are used in the manufacture of, IMH Group products.

If the compliance status of The IMH Group changes following an update to the SVHC list all affected customer will be notified.

Best Regards,

The Lee Company - IMH Group
